

**IN SUPPORT OF THE SOVEREIGN DECISION OF THE PEOPLE OF VENEZUELA  
AND AGAINST THE FACISM  
FOR PEACE, FOR LOVE**

Women, groups and individualities integrated into the Araña Feminista network, today are firm in our commitment to our country, and what to express where we stand and what be fighting for:

1. **Against the facism, destabilization, coups d' etat, authoritarian actions, imperial interference and despise for the sovereign decision of the people of Venezuela.**

Venezuela has made a great effort to build a stable democratic system; We have been forced to confront violent attacks against our democracy, maintained and supported financially by the Empire. Just, 11 years ago we faced a coup d' etat that fortunately we reverted it with the gigantic force of the people and our Armed Forces, but the imperial interference is permanent, openly or secretly, it counts with the financial support of the Empire, the media corporations and with economic and political support of internal forces. They do not respect the will of the sovereign people, their political resolutions and are looking forward to take control of our economic resources.

At this time we are confronting the worst face of the fascism, their violent ideas and actions to keep the economic interests of the most powerful people in the country, burning medical facilities built by the Bolivarian Revolution known as Internal Diagnostic Centers of the Barrio Adentro Mission, local headquarters of the United Socialist Venezuelan Party (PSUV), offices of the National Electoral Council (CNE), homes, attacking the people that support the Revolution. All of this has been made to burn Venezuela, calling up Venezuelans to attack their brothers and sisters, attempting to impose their power using destruction and death. We condemn the candidate Henrique Capriles for causing violence and for his false call for peace.

We' ll fight without a break against all violence.

2. **Respect, support and defense of the electoral turnout announced by the CNE.**

Every one of the Venezuelan people agrees on the capacity, efficiency and nonpartisan of our electoral board. We are proud of it, given the international context where these attributes are not common in that type of organization. We are proud that four out of five of its principal members are women, who have demonstrated the highest technical, political and professional management of the board. We want to express our support and respect for them, as we trust completely on the election turnout announced by the CNE, which we are

committed to defend as it represents the legitimate decision of the people of Venezuela.

**3. Support to the President Maduro, to the collective and popular course and the Bolivarian Revolution**

The characterization of the actual form of the political course of the Bolivarian Revolution, based upon popularity and collective participation is an important quality built by Hugo Chavez and the organized people and should be maintained as the guarantee for the conduction of the revolutionary process. Our total support to the President Maduro who is committed to continue transferring power to the organized people and its leading participation in the decision-process in order to improve the politics and actions of the government. That participation guarantees the revolutionary trait of the process.

**4. To continue building a Socialist and Feminist homeland, Independence and Social Justice**

We have made progress in the first phase of the construction of socialism. Today all of our people has grown in consciousness and participation, the popular power has integrated and grown stronger, the diverse and firm popular movement has put up its voice even though we still have work to do. It is important to deepen socialism and social justice in all sectors and communities. We need peace and action to continue building, for that reason we' ll work restlessly.

At this time, we are convinced of the need to be alert at all times, to confront the violent actions of the right wind, that look for breaking the determination of the people and the decisions of the constituted power.

We believe in the unity of the revolutionary forces, socialist and feminist that strengthen the defence and accompany our fight.

Here in Venezuela, there are organized people and loyal women ready to fight.

For the country/ for live

**Chaves lives, Maduro rules and the fight continue.**

Venezuela April 16, 2013
